

# Casa Lamberdina

## Measures to prevent Coronavirus infection

The priority at Casa Lamberdina has always been its guests and that is why we will now, more than ever, pay attention to hygiene and cleaning in order to offer our guests a safe stay. In order to minimise the risk of infection of Coronavirus, we have taken a number of necessary steps, in addition to the well known rules, such as keeping your distance, washing your hands, wearing face masks and sneezing into your elbow.

### Rooms

- Disinfectant gel/solution, disposable wipes and rubbish bins with pedal operated lids are available in every room;
- If desired, masks can be purchased for €1.00;
- Each room has its own entrance and the key will be in the door of the room upon arrival. This is disinfected in advance and remains with you, the guest until departure;
- Extra pillows will not be available in the wardrobe in the bedroom, but you can ask for them.

### Room ventilation

- The rooms are ventilated after each stay by opening the windows;
- Daily and after each stay, surfaces, doorknobs etc are cleaned and disinfected along with any surface that may have been touched by hand. Every third day the entire room is cleaned.

## **Cleaning and disinfection**

- All plates, cutlery and glassware are washed and disinfected in the dishwasher;
- All room textiles (bed and bath linen) are washed at 60 degrees;
- Towels and bath mats are changed daily as are the bags in the pedal bin.

## **Air conditioning**

- The air conditioning system is checked and special attention is paid to the cleaning of filters;
- It is recommended to keep the air conditioning at an ambient temperature between 23c and 26c so that there is sufficient exchange.

## **Breakfast, dinner and accommodation**

- There is sufficient space outside for breakfast (and dinner if desired);
- Breakfast is served daily at separate tables between 08.30 and 10.30;
- The tables are 2 metres apart as are the sun loungers by the pool;
- General information brochures have been temporarily removed;
- The toilet in the general area is closed, so you must use the toilet in your room.

In addition to these measures, we personally recommend extreme caution to reduce the risk of Covid-19.

**Enjoy your stay!**
